RED FLAGS ARE BARRED FROM SOCIALIST PARADE

Representative Berger Calls Indianapolis Police Chief a Fool.

INDIANAPOLIS, May 11.—Superintendent of Police Martin Hyland issued orders that red flags could not be carried tomorrow night in the big socialist parade, which will be held in connection with the national socialist convention, which opens here tomorrow night.

In discussing the order, Supt. Hyland said the display of red flags might incite rioting.

Representative Victor L. Berger of Milwaukee, chairman of the socialists' national executive committee, when told of the order said:

"Hyland is a fool. There will be no rioting, unless the police start it. Socialists are peaceful. We do not start riots."

Representative Berger said he would not place the matter before the executive committee, but he would see Supt. Hyland and Mayor Shank in regard to the police order. He added that he did not know about the plans for the parade, as it was being arranged by the local socialists.

For Printing Plant.

Aside from recommending the establishment of a party printing plant, the executive committee today transacted only routine business in connection with the holding of the convention. The establishment of a printing plant, it was explained, does not mean the establishment of a party newspaper, which is forbidden under the present constitution of the party.

The women's national committee of the socialists spent the afternoon discussing the advisability of taking over a woman's paper which is published in Chicago. The matter will come up before the convention, and if the constitution cannot be altered to permit the project, it was said, the women's committee would take charge of the paper and conduct it as a party organ.

Problem for Socialists.

That the question of the formal attitude of the socialist party toward the Industrial Workers of the World will be fought out in the socialists' convention was made known at a meeting of the executive committee today.

CARIBBEAN POLITICS.

IX—Will Cuba Avert Intervention.

By Frederic J. Haskin.

HAVANA, Cuba, May 5, 1912.

Cuba is now reaching the critical stage of its second attempt at self-government, and perhaps the next twelve months will tell whether or not it is able to avert a third American intervention. One does not have to go very deep into the situation to discern the danger.

Another plank in the platform of the veterans is that the people who were sent to Spain during the war of independence shall not be entitled to hold any office under the Cuban government.

They assert that so long as there are thousands of veterans of the army of independence in Cuba there is abundant material to choose from those going to those who sympathized with Spain.

Gen. Nunez, the leader of the veterans, declares he has no sympathy with the radical wing of the association.

Threatens to Resign.

He will stand for all they advocate. He says that at the present juncture, when so much depends on a sane, conservative policy on the part of the government and of the people, the veterans ought to stand like an army against radicalism and constitute the nucleus around which all patriotic Cubans who place the success of their country above their own selfish desires can rally, and thus assist in averting the danger of a third intervention.

There are those who predict that intervention will have come before the fall elections, and among those is included perhaps the best authority on Cuban affairs in the island. Others say that no matter how the election goes intervention will follow. They say that if the liberals in the present policies continue bankruptcy will force it, while if the conservatives win there will be a nationalizing of the island.

Another unfortunate factor in the situation is that the quarrelling elements always find a word that comes from Washington as applying to the other side and not to themselves. As an instance of this one might mention their reception of the straight talk handed them by Secretary Knox on his recent visit. He told them that a people who visit from oppressive tyranny have not improved their situation if unrestrained selfishness, which almost invariably leads to anarchy, is the result. He further warned them against remitting the duties of their country to the hands of the few, who, with everything to gain and nothing to lose, make a business of the politics of their country.

After Secretary Knox had thus spoken, each faction straightway applied the admonition to the other side. The party in power took it as a powerful arraignment of its opponents and enemies. It formed a conspicuous text from which every administration organ in Cuba preached sermons by the column against those who opposed President Gomez and his administration. On the other hand, the conservatives saw in the words of Mr. Knox a shrewd castigation of the rule of President Gomez. One of the conservative organs said the admonitions applied most to the very men who held the prominent seats at the banquet table from which it was delivered and who have converted the national politics into a vile traffic. If both sides took the warning home to themselves and acted accordingly they would be in little danger of a third intervention.

There are many elements in the present situation of Cuba which might lead to another intervention.

Bankruptcy Is Worst Danger Faced.

The Washington government expects Cuba to heed its warnings against governmental extravagance. In point of fact, the worst danger that now threatens the island is bankruptcy. One warning after another has been brought to the government, but down to date they have availed but little. There is some hope that the private conversations of Secretary Knox with the officials of the Cuban government have awakened them to the fact that they must stop their reckless use of the public funds and lead them to a sane financial policy.

There are many Americans in the island who would like to see intervention. They do so, however, for the wrong reason. Most of the property-owning Cubans would not be averse to such a course on the part of the United States, for they say it would be best for Cuba in the long run. But the bulk of the Cuban population is proud of the national independence and seem to regard the United States as waiting for an opportunity to seize it out of their hands.

The negro question is one that may have an important bearing on the future of Cuba.

Negro Question May Have Bearing.

was born in Havana, and who has spent most of his life there, declares that the effect of the enfranchisement of the negro in Cuba was almost as bad as in the reconstruction era in the south, and that it has made a political issue in Cuba the end of which cannot be foreseen. Some years ago a law was enacted, with a negro as its patron, providing that no race could hold political meetings as a race. This was intended to hold in check the dangers of a race war.

More recently the negroes of Cuba have come to the conclusion that they can secure their rights only by asserting them as a race. They have organized what they call the "Independent colored party." They have sought to hold political meetings, but the government has forbidden them to do so.

The negroes cast approximately one-fourth of the vote of the island, and hold the balance of power.

President Gomez has promised them to work for the repeal of the law, although some of the negroes doubt his sincerity. The leader of the negro party recently stated that it was up to the government to find some means of allowing the negroes to maintain a separate political party, so that there might not be any "black clouds for the republic of Cuba."

The negroes, while insisting on the right of using the word "colored" in the designation of their party, have protested against any race distinctions in the census returns of the island. Figures showing the number of colored and white people in the island.

While the independent colored party makes more noise than any other movement in the island, it is probably a menace to the continuation of Cuban independence as it is the organization of the veterans of the war of independence.

The veterans are extremely radical in their demands, and if all of these demands should be recognized it is impossible to forecast the result. In the first place, they demand that the civil service laws of the island shall be suspended for a season, during which those who took no part in the war of independence shall be removed from office and their positions filled by veterans.

Another demand of the veterans is that the Cuban congress shall enact a law forbidding the transfer of lands to any one who is not a native or naturalized Cuban.

They also demand that all of the lands of the government shall be broken up into small farms, to be given to fathers of families, the government to assist in their cultivation. They have declared their purpose to stay in session until the government gives them what they desire.

Another plank in the platform of the veterans is that the people who were sent to Spain during the war of independence shall not be entitled to hold any office under the Cuban government.

They assert that so long as there are thousands of veterans of the army of independence in Cuba there is abundant material to choose from those going to those who sympathized with Spain.

In Memoriam.

BURTON. In sad but loving remembrance of our dear daughter and sister, AMY ALBERTA BURTON, who died one year ago today, May 12, 1911.

Safely, safely gathered in,
Far from sorrow, far from sin,
God has saved from weary strife
In its dawn that fresh young life.
Now she waits for us above,
Resting in the Savior's love.

BY HER MOTHER, SISTERS AND BROTHERS.

CHAPPLE. In sad but loving remembrance of our dear mother, SARAH CHAPPLE, who departed this life five years ago today, May 12, 1907.

Just five years ago today we could almost hear the angels say,
"Heaven is not far away, come with us, we'll lead the way."
How we watched and prayed and waited, trusting that the Lord might say,
"As you love her, oh, so dearly, I will call another day."

Still we watched and prayed and waited until the angels came
And bore our loved one where there is no sorrow,
Grief or pain.

BY HER LOVING DAUGHTERS, ROSE AND ETHEL, AND HER SON, ELMER.

JOHNSON. In sad but loving remembrance of our wife and mother, ROSA LEE JOHNSON, who died one year ago today, May 12, 1911.

BY HER HUSBAND AND SON-IN-LAW.

MATS. In lasting and loving remembrance of my blessed little friend, OLIVER STONE MATS, whose angel soul passed from earth to heaven twenty years ago today.

Soon to meet again. CAPTAIN.

SHIELD. In sad but loving remembrance of our only son and brother, WALTER E. SHIELD, who died three years ago today, May 12, 1909.

Oh, how sudden was the summons
When the angel said, "Come on!"
Time was so short to say farewell
To our boy we loved so well.

BY HIS FATHER AND MOTHER.

The month of May once more is here,
To me the saddest of the year,
Because it took from me away
My only brother, three years ago today.

HIS LONELY SISTER ANNIE.
